Amendments to the Claims

Claims 1-20 (Cancelled).

Claim 21 (Currently amended):   A method of using video displayed bar code data in bar code data interchange, the method comprising:

creating an electronic document for data interchange using software, the electronic document comprising text and associated bar code data including the text;

transmitting the electronic document to a computing device;

displaying the electronic document on a video display associated with the computing device;

scanning the bar code data from the video display;

decoding the scanned bar code data into information;

using the information to populate a data field and thereby complete the data interchange from the electronic document to the data field[[.]];

wherein a first software application is executing on the computing device during the step of displaying and wherein the step of using the information is using the information within a second software application executing on the computing device.

Claims 22-31 (Cancelled).

Claim 32 (Currently amended):   The method of claim [[30]]21 wherein the first software application provides for displaying e-mail messages.

2

Claim 33 (Currently amended):   The method of claim [[31]]21 wherein the second software application provides for displaying e-mail messages.

Claim 34 (Currently amended):   The method of claim [[30]]21 wherein the first software application provides for displaying a web page.

Claim 35 (Currently amended):   The method of claim [[31]]21 wherein the second software application provides for displaying a web page.

Claim 36 (Cancelled).
